

Andrew joined our Facebook Live to discuss the impact that participating in Bristol's Service-Learning and Internship Program had on his career path. To see what he had to say, click [here](#).

A highlight from our chat with Andrew:

: - ?

A: "Communication and teamwork were definitely skills I improved on greatly due to my service project. We completed our project successfully by effectively communicating with classmates. We developed a strong plan of action that helped PHENOM increase awareness of their mission on campus. These are skills I still use today in the workplace and during school projects."

: ?

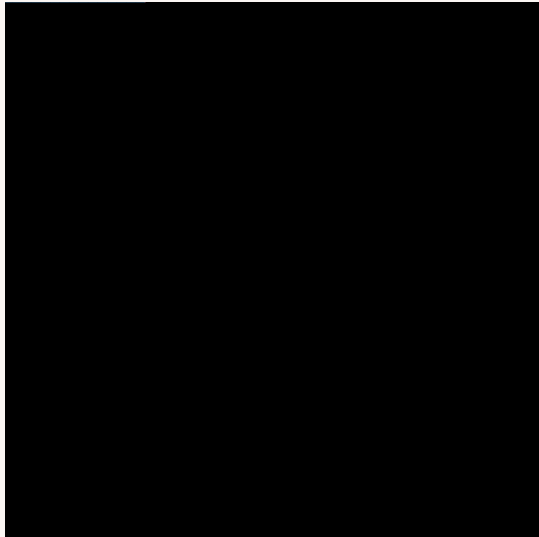

A: "My internship gave me valuable clarification on the direction I wanted to go professionally. It made me realize that I didn't want to be a tax accountant, which was fine. Especially as a student, I didn't know what I wanted out of my professional career but the internship program really helped me focus and refine what I wanted out of my life. It continues to benefit me today as the valuable soft skills I learned in my internship are still with me."

Preparedness is key when seeking and obtaining an internship. Within a 1-hour Internship Prep Workshop, students will work with EEC staff to:

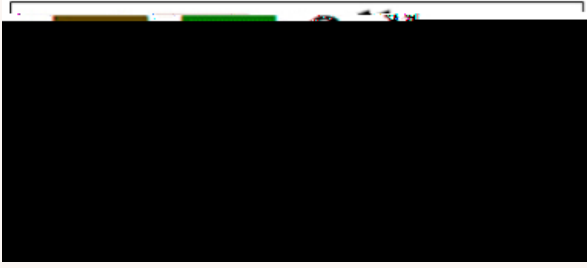

- Review policies and procedures of the Internship Program
- Learn what to expect at the internship site
- Begin the process of developing a resume & identify internship sites of interest

To enroll in the Internship Program students must attend one workshop. Click [here](#) for more information on dates/times.
